

Keeping your doors open for business is our business

Service agreements
for your entrance solutions

ASSA ABLOY

ASSA ABLOY Entrance Systems

Do small components slow your business down?

Your entrances deserve expert service from your local service team

A steady flow of people, goods and services through your entrances every day is a sign of a healthy business.

But heavy traffic also puts your doors under pressure. With every little component working overtime to keep your doors running, issues may be more likely to occur.

What happens if your doors stop working?

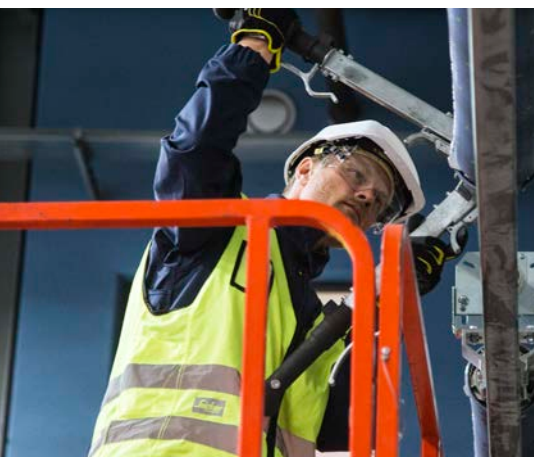

- Customers may go elsewhere
- Production might stand still
- Revenue could be lost

All because your doors have been working hard, opening and closing, day in and day out.

Even something as robust and well-engineered as an ASSA ABLOY automatic door needs service to stay in great working order. That is why we offer the industry's most complete, flexible service solutions.

With local presence and operations in your area, ASSA ABLOY Entrance Systems has specialised service technicians on call to help you take care of your service needs, so you can focus on your business.

What would happen if your doors did not open for business?

2587 packages are shipped through this door every week

SPRING

The precise tension of this spring ensures that the weight of the door blade is counter-balanced

Expert service only a call away

Service you can rely on

With an ASSA ABLOY Entrance Systems service agreement, you get service you can rely on. With qualified, local technicians equipped with inventory to service all brands of automatic doors, you can rely on the expertise of the global leader in door opening solutions to keep your doors open, so you can have the freedom to get on with the day-to-day running of your business.

We keep your business running with:

- Fast response to service calls
- Regulatory compliance checks and upgrades
- Servicing of all entrances, even other brands
- Savings on the total cost of your entrances
- Pro-active care using analytics and reports to prevent unplanned downtime

Three levels of priority cover

Whichever service agreement you choose, and whether it covers one site or many, our teams do not just service your doors – they also go the extra mile to provide solutions that prolong the life of your equipment.

We can ensure reliable, safe and sustainable operations at every entrance under your agreement – to keep your business moving.

WHEELS

These wheels make 44,000 rotations a day to ensure smooth opening and closing

The perfect automatic entry solution

Retail

Retail businesses rely on a smooth movement of goods and people through the day. Our automatic entrances provide a safe and seamless experience from service entrances to the shop floor.

Commercial

From banks to community centres and government buildings, entrances should enhance the visitor experience while providing convenience and safety for your staff.

Hospitality

First impressions matter in the hospitality industry. We have a full range to enhance every guest's experience, from visually appealing front entrances, to secure and functional internal and staff entrances.

Health & Agedcare

Whether it is your main entrance, outpatient facility, corridor ICU room or surgical area, Healthcare and Agedcare demand automatic entrance solutions that can provide safety and convenience.

Transportation

High-traffic environments require both convenience and security. Automated doors with access control can create a secure and user-friendly division between public and restricted areas.

Industry & Manufacturing

Manufacturing facilities need to separate environments, maintain optimum temperatures and optimise the flow of production. Create an efficient, safe, smooth flow of people and vehicles.

Distribution & Logistics

In the business of moving and distributing goods, smooth processes and efficient operations are essential. Our full portfolio of docking solutions ensures that loading and unloading is always safe, fast and sustainable.

Education

Education facilities demand a reliable, robust, yet safe range of entrance solutions. Our range of entrance solutions for the education industry caters for a seamless flow of students and staff, from main entrances to speciality rooms.

Aviation

Air hangars need entrances that can cover large openings, withstand extreme weather conditions and are not limited by size or configuration. Our range of hangar doors meet top safety standards and require minimal maintenance.

The ASSA ABLOY Group is the global leader in access solutions. Every day, we help billions of people to experience a more open world.

ASSA ABLOY
Entrance Systems

ASSA ABLOY Entrance Systems provides solutions for efficient and safe flow of goods and people. Our offering includes a wide range of automated pedestrian, industrial and residential doors, loading dock equipment and services.
