Dock shelter ASSA ABLOY DS6070R

Experience a safer and more open world

Inflatable dock shelter

The food industry puts high demands on loading bay sealing in order to keep the cold chain as intact as possible. The dock shelter must provide continuous weather protection throughout the entire loading and unloading operation. The shelter is inflated around the docked vehicle, providing complete sealing. The ASSA ABLOY inflatable shelters are suitable for a wide range of vehicle sizes and their sealing capacity exceeds by far the standard normally required by operators.

The top seal of the ASSA ABLOY DS6070R inflatable shelter is a roller design – automatically activated for low or high vehicles. In addition, it follows all vertical movements of the docked vehicle, continuously providing high tightness.

In rest position, the ASSA ABLOY DS6070R inflatable shelter is completely retracted behind the side structures, giving the vehicle driver the possibility to use the complete width of the loading bay when reversing into it. In addition, yellow front line indicators further facilitate the dock-in navigation. Stable collision protectors at the ramp height prevent shelter damages.

Insulated top and side panels

The inflatable dock shelter is installed into a frame construction covered by insulated panels, giving additional insulation effects. The design facilitates easy and fast component exchange, should this be needed.

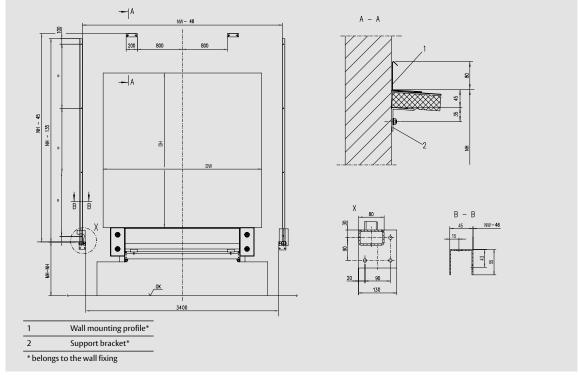

High quality material composition

The side and top inflatable airbags are made of impact resistant material with a strong, woven core. It is non-flammable, colour stable and highly resistant to weather impacts – in other words a material well suited for optimal function in rough docking environments.

Technical Data	a
Nominal height	4055, 4355, 4555 mm
Nominal free height	3600, 3900, 4100 mm
Nominal width	3600 mm
Nominal depth	770 mm
Top bag extension	2200 mm
Side bag extension	650 mm
Walls and roof	insulated panel, 42 mm
Standard RAL colours	3000, 5010, 6005, 7016, 7021, 7024, 9002, 9006, 9007, 9010
Fabric quality Top curtain Side bag rear Side bag front Option wear shield	PVC coated polyester 650 g/m², thickness 0,6 mm 600 g/m², thickness 0,5 mm 2500 g/m², thickness 2 mm 3400 g/m², thickness 3 mm
Fan	230 V, 1-phase, 50 Hz, 250 W noise level: 65 dBA in working position
Operating	switch control included other controls available as option
Temperature range	-30°C to +60°C

Abb.	Dimension	Value (mm)
NW	Nominal width	3600
NH	Nominal height	4055, 4355, 4555
FH	Free height above level*	3600, 3900, 4100**
OP	Top curtain travel	2200
ND	Nominal depth	770
RH	Dock height	
МН	Installation height	VH+800
VH	Vehicle height
