

Open your doors
to a constant flow
of business

Complete entrance solutions
for food and grocery stores

ASSA ABLOY

Make sure your goods and customers have uninterrupted access

In food and grocery stores, stock delivery is critical

When your business relies on regular deliveries of fresh goods, you need back entrances that are efficient and reliable. And at the front, your entrances have to be resilient enough to withstand the occasional collision with a trolley, while guaranteeing people safe and easy access to your store.

If you do not have entrances that are optimal for your store, you could risk:

- Losing customers
- Losing stock
- Unwanted downtime

Doors that keep up with the pace of your store

Fast opening industrial doors can speed up the delivery process

Specially engineered ASSA ABLOY entrances are designed to perform in busy environments, ensuring uninterrupted access to your store throughout the day. They can withstand bumps and knocks, and if you are short of space, our doors provide solutions that require little room while still retaining optimum performance.

Your retail support team

Our teams of architect consultants, sales advisors and service technicians can offer expert advice throughout the entire building life cycle

From rugged frame sliding doors to high performance interior doors, we have an entrance system to answer the issues your store faces

Keep stock chilled

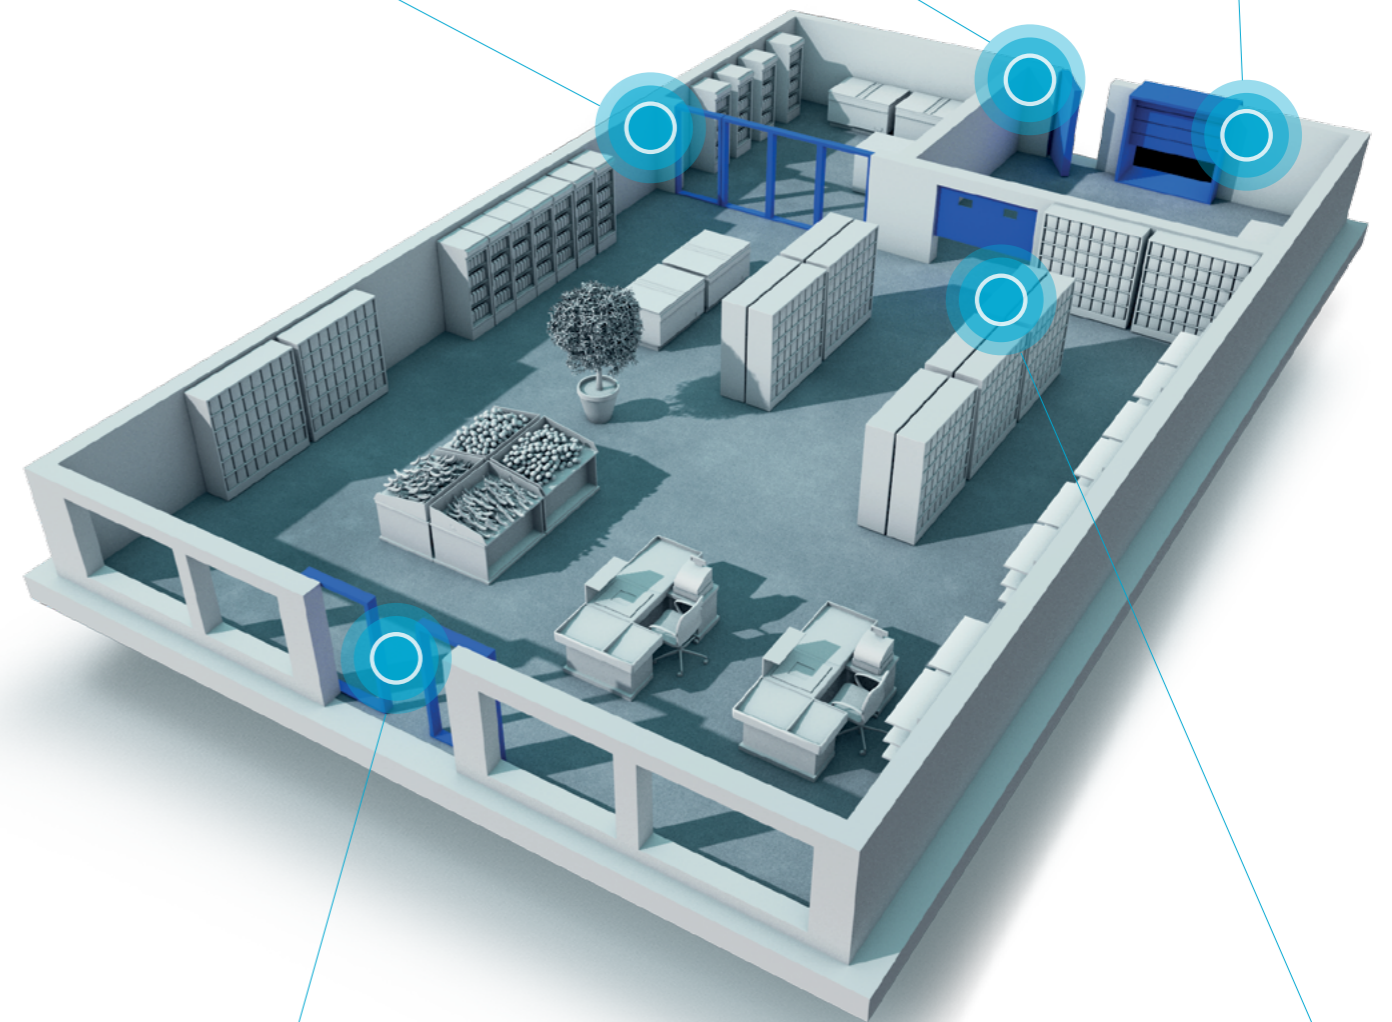

Insulated sliding doors with TightSeal technology keep cool areas separate, ensure energy efficiency in your building and improve staff and customer comfort

Secure your stock room

Automatic swing door systems with access control ensure only authorized staff can enter and that the door closes securely behind them

Ensure smooth delivery

Every delivery is free of holdups with automated docking solutions. And you can reduce energy loss with insulated dock levelers and shelters

Easy access for many people

Framed sliding doors that can withstand the wear and tear of trolley collisions and intelligent directional sensors that ensure automatic doors only open when they need to, ensure that customers are welcomed throughout the day while also regulating your indoor temperature

Safe, efficient access

Between stock room and the shop floor, a fast-acting high-performance door will ensure safe and efficient operations by keeping customers separate from staff operating pallet machines

ASSA ABLOY Entrance Systems is a leading supplier of entrance automation solutions for efficient flow of goods and people. Building on the long-term success of the Besam, Crawford, Albany and Megadoor brands, we offer our solutions under the ASSA ABLOY brand. Our products and services are dedicated to satisfying end-user needs for safe, secure, convenient and sustainable operations. ASSA ABLOY Entrance Systems is a division within ASSA ABLOY.
