

# Automatic doors – when hygiene matters most

Complete entrance  
solutions for healthcare

**ASSA ABLOY**  
Entrance Systems

Experience a safer  
and more open world

# Your care is our care

Easy, hands-free access, with entrances that support hygiene play a critical role in healthcare facilities.

## Protection and access are key

The healthcare entrance solutions from ASSA ABLOY Entrance Systems can make a crucial difference when seconds count. Our industry leading products and services help to meet the demanding challenges and constantly changing requirements of the healthcare industry.

## Easily convert your existing manual doors to automatic swing doors

Adding operators to your existing manual swing doors is a quick and easy way to add automatic convenience to your facilities. Automatic swing doors provide yet another touchless entrance system that helps keep areas germ-free.

## Touchless wave plates ensure easy, hygienic access

Equip your swing door operators with touchless wave plates to provide a hands-free experience that is hygienic. By simply waving a hand in front of the device, the door automatically opens without the need for contact thus reducing the spread of harmful germs or bacteria.

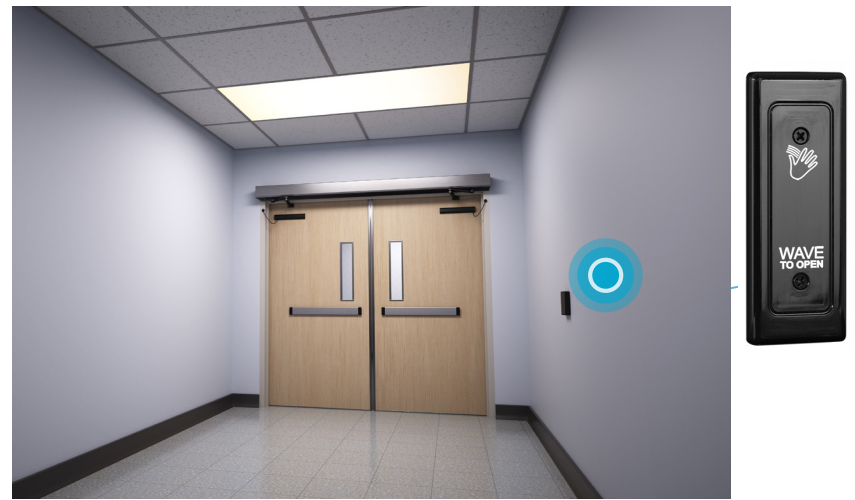

You can also equip your door with activation sensors for an additional level of hands-free convenience.

## Keep processes running smoothly with fast, efficient service

We offer the industry's most complete, flexible service solutions, including regulatory compliance checks and upgrades. Our local experienced technicians respond quickly to issues to ensure that your doors, no matter the brand, are fully operational, and downtime is kept to a minimum.

Touchless ICU Doors

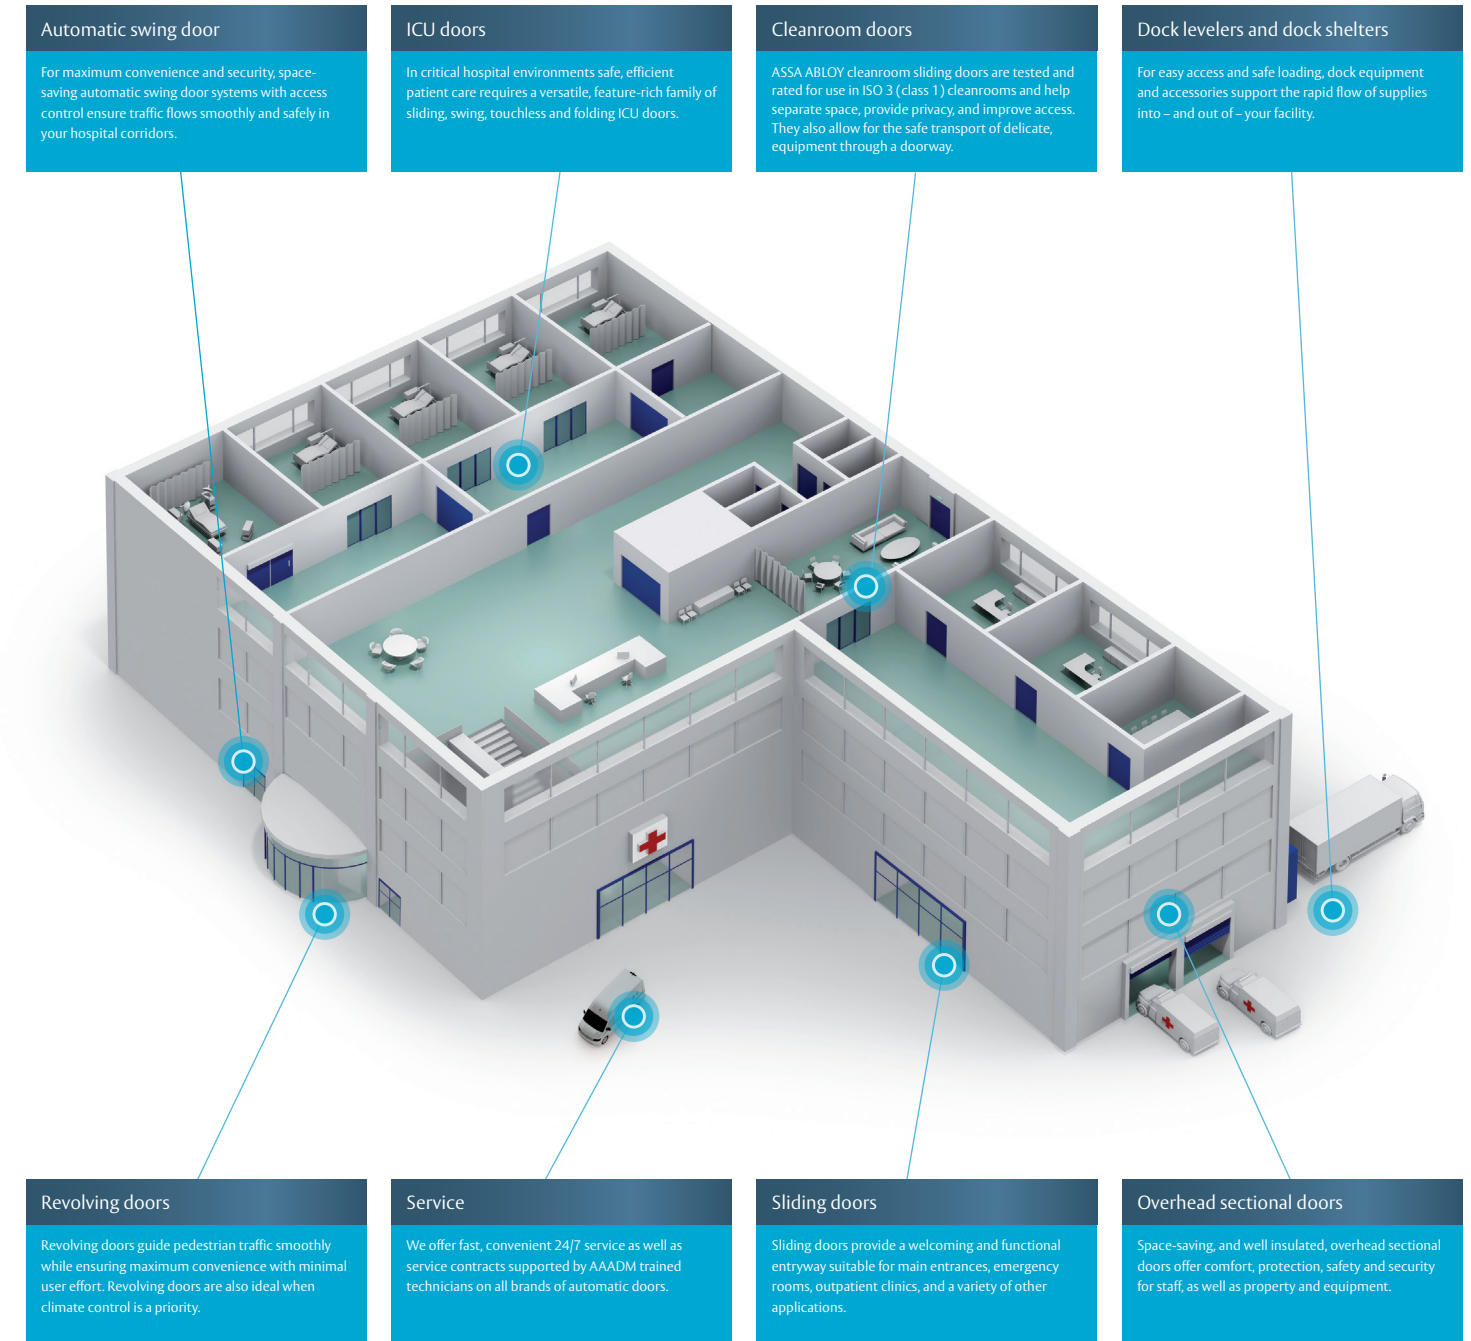

SW200i automatic swing doors operated by touchless wave plates

On demand, contract and 24/7 service for all brands of automatic doors

# A perfect solution for every door

In healthcare environments, everything matters. From the quality of your care, the capability of your staff, or the accessibility of your building, no detail is too small to be considered.
