

Ensure your entrance solution always performs to its full potential

Experience a safer and more open world

ASSA ABLOY

Optimize

Protect the hardware that your business depends on

Every entrance solution needs the right care, attention, and service to stay in great working order and to maximise its potential and lifecycle.

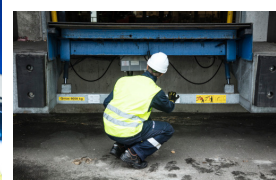

Whether it's fixing a problem before it escalates and needs to be repaired or assessing the equipment to make sure it's performing at the highest level, care and maintenance is essential.

That's where we can help. Our global service expertise helps you run a smooth and long-lasting operation through proactive and preventive actions that help increase everything from reliability, and availability to safety while reducing both operational costs and downtime.

Our services maintain your entrance solutions on an on-going basis. We make sure everything is working as intended and help prevent unexpected breakdowns. Plus, we help you optimise your equipment so that it continuously performs to the very best of its capabilities.

We take care of all your entrance solutions

- A wide range of **automatic doors** for all needs.
- **High-speed doors** for industrial environments.
- Well-built and high-performance loading **dock equipment**.
- **Commercial and industrial doors** you can count on.
- **Digital solutions** for entrance systems.
- **Megadoors** for mega-needs.

Next level care for your entrance solutions

A comprehensive service agreement that includes innovative digital services, ASSA ABLOY Optimize keeps your operations performing at their full potential.

For facilities where uptime, reliability, seamless performance, and fast response time are critical to your business, ASSA ABLOY Optimize is the right choice.

With this agreement, we take care of everything so you don't have to. We take care of and plan all maintenance and repairs, manage service work and spare parts supply, and ensure everything is on-site, on time – providing the convenience of simplified administration and peace of mind.

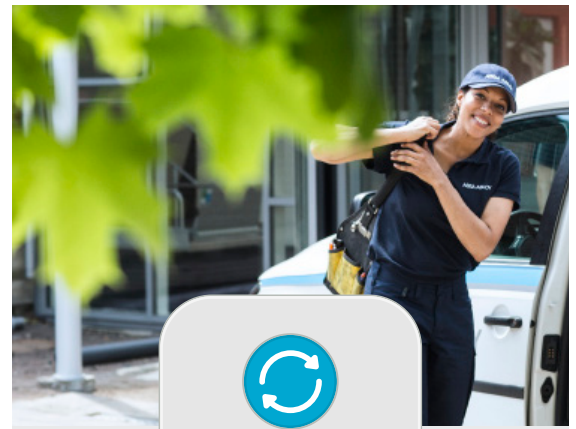

Digital applications for best-in class service

We leverage on digital services to take care to the next level - and this care begins at the very start. We remotely control and monitor the installation to ensure that we deliver the best service available.

We then continue to proactively monitor your equipment based on real-time data, while our fast response time ensures your equipment is back up and running with the least amount of hassle.

Enhanced by digital services, ASSA ABLOY Optimize enables you to:

- **Have eyes on everything** – get a 360 view of your system, spot and solve issues quickly, and get real time alerts if anything's not working as it should.
- **Get insights you can act on** – all your service history, orders, invoices, expenses, checklists, and reports in one place. Spot patterns and track performance.
- **Let service take care of itself** – we monitor alongside you, and schedule service and maintenance as needed, so you don't have to.

Why you should choose ASSA ABLOY Optimize:

- Proactive care of your equipment
- Improved performance and reliability
- Fast response time and first-time fix, maximising uptime
- Remote control and monitor installation
- Simplified administration
- Full overview and control over costs with predictable cashflow
- Lifetime insurance on the entrance solutions
- Peace of mind
